

2sms Java (Platform Independent) Solution

About 2sms

2sms allows business customers to send text messages from your computer to cell phones anywhere in the world. We help customers improve operations, demonstrate duty of care, and react more responsively to customers.

Text messaging reaches more people than email and faster than calling.

For Help, call 2sms on 877-276-7266 (USA), 0800 65 222 77 (UK) or +44 1234 757 800 (Rest of World) or email support@2sms.com. Support is available 24/7.

2sms Java (Platform Independent) Solution Overview

The 2sms Java (Platform Independent) solution is one of 25 software solutions that act as a bridge from your corporate systems to the SMS messaging network. Visit www.2sms.com/software for more information.

The Java desktop client provides the full core messaging functionality of the Windows client application, including the ability to send a message to multiple recipients simultaneously and for scheduling messages to be sent at a specified date and time in the future.

The 2sms Java (Platform Independent) solutions principal advantage over the Windows desktop client is platform independence. Using 100% Pure Java it is capable of operating on any system that supports the Java Virtual Machine (JVM) including Sun Solaris and a variety of UNIX and Linux systems.

Customer Doc #	SAL-125
Issue No./Date	1.0 09-Feb-07
Classification	N/A

Just like the Windows software, the Java desktop client is available branded with the name and logo of the customer.

The 2sms Java (Platform Independent) Solution offers the customer the following functionality:

- ✓ Isolated user use
- ✓ Send messages from one to 1000 recipients at one time
- ✓ Full reporting
- ✓ Ability to send scheduled messages
- ✗ No address book integration

This solution is targeted at customers who are looking at using an integrated solution available on all platform types. Use the 2sms Java (Platform Independent) Solution to send SMS Messages:

- To one or more mobiles
- On all networks domestic and international
- Fast turnaround. Our SLA is 97% of messages submitted to a delivery network in less than 60 seconds.

Requirements

Java Virtual Machine 1.5.0

Installation requires the user to have a 2sms account, this can be setup by visiting www.2sms.com/register
Or by calling support

Useful Information

The 2sms technical installation guide can be found at www.2sms.com/documents/us/software/2sms_US_Software

The Java Virtual Machine can be downloaded from <http://www.java.com/en/download>
